"A Rubber Chain Tread built on a Powerful Modern Tire"

These Manufacturers Know

Wise automobile manufacturers have to know good tires-it is their business to.

Next to the motor, the tires on a car are the most vital part of the car.

Next to the quality of the tires, the company behind the tires—the number of tire service stations throughout the country, and tire service given-is the most vital part of the tire subject.

Among the many leading automobile manufacturers of the world who have already ad opted "Chain Treads" as a part of their standard equipment, are the following:

Buick Dodge Brothers Grant

Haynes Maxwell

Mitchell

Wise manufacturers know that it pays them to have their cars reach the buyers equipped with the best of tires, just as it pays them to use the best steel in their chassis, and the best motors that can be produced, etc.—that is why they are giving their customers

Safety experts acknowledge our rubber chain tread, built on this powerful modern tire to be an absolutely marvelous anti-skid device.

"Chain Treads" are not simply a fancy design stamped on a tire-they are real anti-skid tires. Send your name and address, for a set of Free Tire Record Blanks, to United States Tire Company, New York City.

"Chain Tread" Tires are sold by Leading Reliable Dealers. Do not accept substitutes
